German Submarines Surrender in Ireland

While other events of 1945 such as Victory in Europe Day or Victory in Japan Day are more widely celebrated, the surrender of the U-Boats was crucial to the Allies. With the surrender of the U-Boats at Lisahally, the almost 6-year long Battle of the Atlantic, and the Second World War in Europe came to an end. The ports and airbases of Co. Londonderry NI and CO. Donegall in the Republic can never downplay their role in securing that victory.
